

Priya Sharma - Senior Python Developer

Email: priya.sharma@example.com | **Phone:** +91-9876543210

LinkedIn: linkedin.com/in/priyasharma | **GitHub:** github.com/priyasharma-dev

Location: Bangalore, India

Professional Summary

Seasoned Python Developer with over 7+ years of experience building scalable backend systems using Python, Django, and FastAPI. Proficient in deploying microservices using Docker and AWS. Strong advocate of clean code, RESTful APIs, CI/CD, and cloud-native development. Known for leading backend teams, mentoring junior developers, and owning project lifecycles end-to-end.

Technical Skills

Languages: Python, JavaScript, Bash

Frameworks: Django, FastAPI, Flask, DRF

Cloud: AWS (EC2, S3, Lambda, RDS, CloudWatch)

DevOps: Docker, GitHub Actions, Jenkins, Nginx

Databases: PostgreSQL, MySQL, MongoDB, Redis

Tools: Git, VS Code, Postman, Celery, RabbitMQ

Other: REST APIs, Microservices, OOP, Linux, Agile

Professional Experience

Senior Python Developer - TechNova Solutions, Bangalore (May 2021 - Present)

- Designed and developed microservices using FastAPI and Django, reducing monolith complexity by 45%.
- Deployed containerized applications on AWS ECS, managed secrets with AWS Secrets Manager.
- Implemented asynchronous tasks with Celery and Redis for real-time notifications.
- Collaborated with DevOps to create Dockerized pipelines for CI/CD using GitHub Actions.
- Improved system performance by 35% through query optimization and caching strategies.

Python Developer - CloudByte Technologies, Hyderabad (Jan 2018 - Apr 2021)

- Built and maintained scalable Django applications serving over 500K users.

Priya Sharma - Senior Python Developer

- Integrated third-party APIs and built custom REST endpoints for mobile apps.
- Worked closely with frontend (ReactJS) teams via well-defined API contracts.
- Wrote unit tests, conducted code reviews, and ensured 90%+ code coverage.
- Used AWS Lambda for serverless batch processing tasks.

Junior Python Developer - NetCrafters Pvt. Ltd, Pune (Jul 2016 - Dec 2017)

- Assisted in building Django admin portals and RESTful APIs.
- Set up PostgreSQL schemas and migrations using Django ORM.
- Deployed test environments using Docker on staging servers.

Education

B.Tech in Computer Science

Savitribai Phule Pune University - 2016

Certifications

- AWS Certified Developer - Associate
- Docker for Developers - Udemy
- Advanced Django & REST Framework - Coursera

Projects

Task Manager App

Developed a task manager web app with Django REST + React. Used JWT for auth, PostgreSQL for DB, and deployed to AWS EC2 using Docker.

Video Transcoder Microservice

Designed a FastAPI service to convert uploaded videos into multiple resolutions. Utilized S3 for storage and CloudWatch for logging.
